PROJECTS

Moji AI — Social Platform for AI Enthusiasts

Next.js, Node.js, Express.js, AWS, JWT

Developed a community-driven platform similar to Reddit, where users share AI-related posts and discussions. Implemented secure JWT authentication, SEO-optimized Next.js pages, and backend APIs for posts, comments, and user profiles. Deployed on AWS with Docker and Nginx, using S3 for static assets and EC2 for backend scaling.

Stylaa — SaaS Salon Booking Platform

React, Node.js, Express.js, AWS, Stripe

Built a SaaS-based salon management system with booking, timeslot, and membership modules. Integrated Stripe Connected Accounts for salon payouts and automated billing workflows. Deployed on AWS with Dockerized microservices and Nginx for reverse proxy.

CaseCrafter — Legal Drafting Automation Tool

Django, React, Stripe, AWS

Developed a legal SaaS platform for document drafting and subscription management. Implemented Stripe-based plans, authentication, and dynamic form-driven document generation.

Plugg — Social Media Search Engine

Next.js, Flask, AWS

Created a user discovery platform with intelligent search and profile ranking. Built REST APIs with Flask and frontend in Next.js for optimized performance and server-side rendering.
